However, you should have some cash when travelling (to buy a metro ticket at the airport station or to take a taxi). Getting some cash from an ATM might be more convenient than using exchange offices.

**Electricity.** We use a 230-V/50-Hz electricity network. Make sure your appliances are compatible (or get a travel adapter).

**Emergency numbers.** If you need assistance from an ambulance or the police, call 112 from any phone (including your mobile phone while roaming).

**Visa.** Participants from certain countries must have a Bulgarian visa from a Bulgarian embassy or consulate. In this case one must send his names, birth date and international passport data to the hosting the conference institution and a standard invitation letter can be received.
